A Cat's Paw Organisation

Andrew Wilson, commercial organizer of the U.M.W. of A. leaves no doubt as to the purposes of the organization in coming into the Edmonton coal fields. He told the Convention board on Thursday, speaking of the U.M.W. of A. that his association having spent \$100,000 in other coal fields for organization, he was prepared to spend \$50,000 in the Edmonton field, as stated by Mr. Ryan, the representative of the U.M.W. of A. Mr. Dunn, of the Great West Coal company, Mr. Wilson confirmed and emphasized what Mr. Ryan had already said and denied that he went very much further. He specifically stated that there would be no limit in money, or sacrifice, to which the U.M.W. of A. would not go to achieve their purpose; and instanced the killing of eleven men in one time in the coal fields of West Virginia last year, as proof of the earnestness of the organization.

For once the U.M.W. of A. has come out in the open. There is no camouflage about Mr. Wilson's statement. He has said that the U.M.W. of A. can go where it has to have disruption of industry and sacrifice of life in this peaceful Edmonton district unless the organization is accepted. The coal of the Edmonton district would be destroyed, he said, if the U.M.W. of A. permit it to be mined. The people who need fuel must do without it, he said, if the demands of the U.M.W. of A. are not to be charged. No man shall work at taking the coal out of the ground unless the U.M.W. of A. says he may. That is what "organization" by the U.M.W. of A. means, he said. "Living a living wage that will be paid to the miners," he said, "education and themselves with the full necessities of life." A very laudable and proper purpose, provided it can be achieved without prejudice to other citizens whose right by reason of their wages may be increased when in every other line of industry wages are being decreased—or there are no wages at all, because work has ceased!

The U.M.W. of A. position as stated by Mr. Wilson, is simple to the point of being elementary. Coal is a basic industry. People must have coal or they can't live. The changes of the season and the conditions make it possible for the man whose labor makes the coal available for use, to hold out against his money. Mr. Wilson's proposition is that the

coal mine workers shall be organized by the U.M.W. of A. so that whatever happens other citizens in regard to work, wages or the cost of fuel will be paid at rates and work under conditions, fixed by themselves. The railway companies could hold up the outside consumer in exactly the same way as the miner, if so minded. Or the mine operators could do the same by means of an organization. Everybody can hold up the coal consumer. The difference is that all other citizens are willing to render service for money paid. The U.M.W. of A. demand control of the field, and wages fixed by themselves as well. They propose to establish their demand by the employment of capital of untold amount and the use of force as well.

In this connection the question of the sources from which are to be derived the funds to be used in the subjugation of the Edmonton coal field by the U.M.W. of A. naturally arises. Who is the chief beneficiary of the coal mines of Alberta are tied up in whole or in part. The coal of Alberta competes with that of Pennsylvania in the markets of Manitoba and Eastern Saskatchewan. The Pennsylvania mines have always paid the best of attention to their trade in that market. The extent of their interest in the coal fields of Alberta was they were able to locate in all three Winnipeg newspapers an intensive campaign against the use of Alberta coal. The Nanningan strike kept Canadian coal out of the San Francisco market for many months. The Sidney strike performed a like service for the New England coal markets. The money that these strikes got out of the U.M.W. of A. But there is every reason to believe that it was supplied in the first instance, not by subscriptions but by the sale of the coal that the big operating companies who used the U.M.W. of A. to keep Canadian coal out of the United States, just as in the case of Alberta they are prepared to use it to let Pennsylvania coal into Canada.

Understood. The Turk Nationalists say they are ready to negotiate terms with the Allies—Nationalist terms, of course.

Punishing Themselves. The Austrians, who want their much diminished country joined to Germany, are punishing themselves by hunger strike. That is not what they call it, but that is what it amounts to. In the dispatches the performance is described as a "general" strike. The rest of the world ought to be able to stand it as long as the Austrians.

Poor Economy. The life is called upon to pay right through the nose for damages and costs because a stray car running without a headlight crashed into a wagon stuck on a crossing and injured the driver. Why the headlight on the car was not working the reports do not say. Presumably because it would not work, or because somebody neglected to turn the switch. That kind of operation costs high.

Inconscient. Winnipeg politicians declare that with a reduction of about fifteen per cent in the prices of boots and shoes there is prospect of the business picking up very fast. It is to be suspected that a further cut of fifteen per cent would brighten the prospect to an even greater extent. Though prices have gone down, the cost of footwear is still out of keeping with all pre-war standards, and also with the present cost of clothing. Raw hides are certainly as cheap as raw wool and raw cotton, but the public are in the dark as to why boots and shoes should not come down to some such relationship to the cost of clothing as formerly prevailed. That may not be possible, but there certainly seems to be something wrong when it costs half as much to get a pair of good shoes as to get a suit of clothes good enough for ordinary wear.

Government Banks? Delegates to the U.F.A. convention passed a resolution calling on the Dominion government to take over and operate the banks. The idea evidently is that it would be easier for many people to borrow money from the banks if the Government was running them. That might be the case so long as the banks have the results of the "nationalization" policy in other directions the chances are that they would not last long enough for anybody to get much permanent good out of the change. If the Railway Commission cannot boost freight rates enough to keep Government

REPLY TO "NO TIME FOR A PAY AND LOOK PLEASANT"

Editor, The Bulletin.

Mr.—In reply to your editorial "No Time for a Pay and Look Pleasant" I am sorry to hear that you are not satisfied with the refusal of a fast return by the U.M.W. of A. for the services of the coal miners. I am sure that the U.M.W. of A. is not the only organization that is not satisfied with the refusal of a fast return by the U.M.W. of A. for the services of the coal miners.

The teachers are quite willing to take their share of the burden of the strike. The Nanningan strike kept Canadian coal out of the San Francisco market for many months. A Hint for Charles. The Italians and Czechoslovakia are in a state of confusion. They stand firm on the principle that while Hungary is free to establish what form of government it may choose the Hohenlohe must not come back to it. It is to be hoped that in this case the "tail will wag the dog," and that Britain and France will back up their smaller Allies and make charges that they are down and out permanently. Recent occurrences suggest that a plain statement to that effect on the part of the Allies is needed.

PAY AND LOOK PLEASANT

Editor, The Bulletin.

Mr.—Mr. J. H. Spear was not so sharp as he had seemed when at the meeting of the Edmonton Coal Field Association. The proposition against the U.M.W. of A. was not so simple as it seemed. The U.M.W. of A. is not the only organization that is not satisfied with the refusal of a fast return by the U.M.W. of A. for the services of the coal miners.

Candidates are allowed double credits on all subscriptions they turn in from January 19 to February 5, inclusive. Subscriptions will never again count for as much as they do now. It is the last chance for new candidates to get started in the race. It is the peak of the campaign and the right time to pile up an Automobile winning score. Positively no more Extra Prizes.

SPECIAL EXTRA—\$500—EXTRA REWARD

For the Candidate Who Obtains the Largest Number of Credits During the Banner Period, January 19 to 10 P. M., February 5.

The Plan In A Nutshell

Awards totaling \$15,000 are offered to those who compete as members of The Bulletin Salesmanship Club and do the best work up to the close of the campaign, February 12. Five Big Automobiles head the list. Then there are seven \$100 Merchandise awards, seven \$50 Merchandise awards and forty \$25 Merchandise awards. All active non-prize winning members will be paid a cash commission of ten per cent. Of course, the two Extra \$250 Cash Prizes offered during the first period of the Campaign and the Extra \$500 Cash Prize offered now, during the Banner Period, are included in the total list of awards.

The plan of the Campaign is simple. The Prizes will be awarded to those who obtain the largest number of vote credits and credits are given on subscription payments from both old and new readers of The Bulletin. Club members may obtain subscriptions anywhere and subscription payments range from three months to twelve months. The list of members of the Salesmanship Club, and the number of their credits, counted for publication, will appear daily in The Bulletin so that the friends interested may note the progress of those competing.

More Credits are given on subscriptions during this, the Banner Period, which ends February 5, than thereafter. The highest published standing in today's Bulletin is less than 125.00. A new twelve month subscription, by mail, entitles a member to 24.00 credits. A new twelve month subscription, by mail, entitles a member to 24.00 credits. Note how few of these subscriptions it would take to put a new member high on the Honor Roll. Who will be the person ambitious enough to get into the race now and go over the top?

British Leaders**

HIGHLY IMPORTANT MEET

Personalities Present and Subjects Outlined in Order—Strictest Secrecy Maintained

French Cabinet's Policy

PARIS, Jan. 15.—The attitude of the French Supreme Council concerning reparations was the subject of a conference this morning at the Elysée Palace. André Michel, new Premier and minister of foreign affairs, went to the Palace and discussed the entire reparations question with President Mitterand. A decision was reached upon the form in which the French government will appear before the Supreme Council tomorrow.

The five powers to be represented

next to Lloyd George, Earl Curzon of Kedleston, Marshal Sir Henry Hughes Wilson of the Imperial staff; Baron Edgar Vincent D'Abernon ambassador to Germany; General Bingham, president of the Inter Allied committee.

France—M. Briand, M. Berthelot, M. Luchaire, M. Doumergue, Zepherov and Colonel De Hauwair, ambassador to Great Britain.

Italy—Count Orlando, foreign minister and Marquis Della Porta.

Belgium—James Thunys, minister of finance and M. Van de Vyvere.

Japan—Viscount Ishii, ambassador to France.

The meetings will be held in the famous clock tower of the Foreign office in the strictest of secrecy.

The questions to be discussed will come up in the following order, unless after an embargo has been placed on delegates that it advantageous to adopt a different program:

ail, Treaty of Nevers, war debts between the Allies and Austria, exchange and relations between the Allies and the United States.

The disarmament discussion is expected to turn mostly upon the

many to comply with the Peace Tree. If, as the Allies are supposed to agree, that Germany will not disarm effectively, it is understood that France does not want to apply the 10 per cent reduction of armaments. However, provided the Treaty agreement remained as it is, it is confirmed, nevertheless, Premier Briand is expected to take a firm attitude.

C.P.R. Still Owes Trotsky \$40 Says Shaughnessy

NEW YORK, Jan. 22.—The Canadian Pacific railway owns Leon Trotsky \$40. This was admitted with a smile by Lord Shaughnessy, president, chairman of the board, at the

so fond of it, but when Trotsky lived
in New York he also worked for the
Canadian Pacific railway here."
"True," interrupted Lord Abingham,
"and we still owe him \$40."

A Lecture Given by Professor J. Adam Before the Women's
University Club.

It is often said of such a play that it is a discussion, that though representing the life of a people, it is not a picture of the poverty of life. Sir G. G. Scott-Kemp, who has been the first to produce this play, says that it is not a realist but a mystic.
